EXPERIENCES

**56+ sessions across 11 months. Every one built with your role
in mind.**

Whether you're a counsellor, founder, service provider, or university
professional — this calendar was designed for how you work, not
around it.

As a TOC member, your year spans **technical deep dives on visa compliance and admissions strategy, hands-on AI certificate workshops, career pathway series across eight industries, curated service provider showcases, and premium in-person experiences** across India and Japan. Our membership spans counsellors, founders, service providers, university professionals, and school leaders — and rather than a one-size-fits-all calendar, **every session is built for a specific audience**, alongside universal events that bring the full community together.

Here's what shapes the programming you'll experience as a member:

BUILT FOR YOUR ROLE

You won't sit through sessions meant for someone else. Counsellor tracks, founder fellowships, service provider showcases, and university-focused training — each designed for your specific context.

ACCESSIBLE BY DESIGN

84% of programming is virtual — so geography is never a barrier. And with only a handful of premium in-person experiences priced separately, your membership unlocks the vast majority of the calendar.

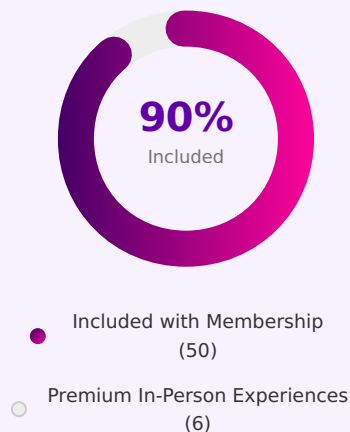

EVERY SESSION EARNS ITS PLACE

No filler. No generic webinars. Every session on the calendar has a clear learning outcome, a qualified speaker, and a reason to be there.

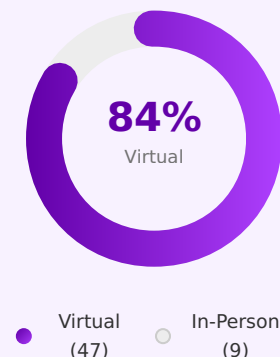

SOME THINGS NEED A ROOM

The Residency, The Soiree, The Conclave, Sakura Immersion — six premium in-person experiences that go beyond what a Zoom call can deliver.
